

Year-End Update

YESHIVA UNIVERSITY
TORAH MITZION
BEIT MIDRASH

By The Numbers

Dear Friends, רבני,

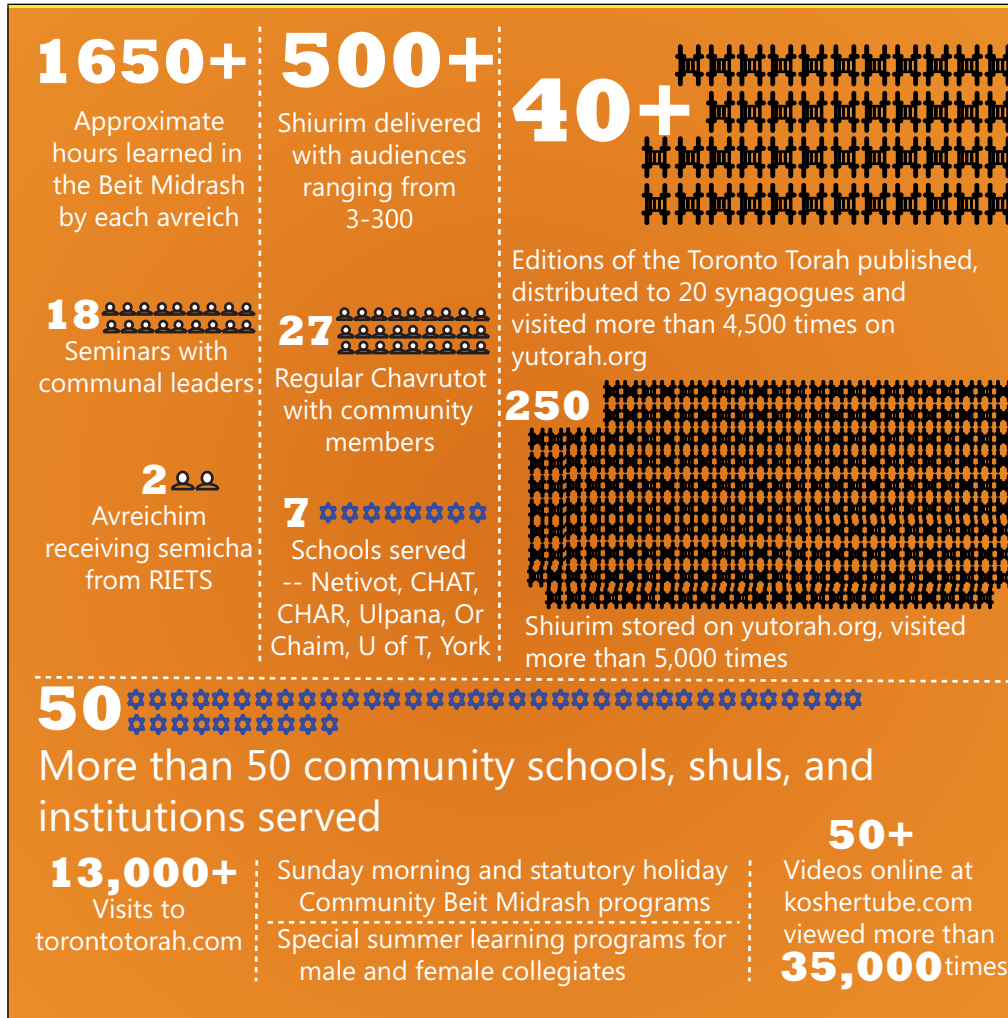

With thanks to Hashem, we proudly declare our first year a great success! As the year draws to a close, we are overwhelmed with gratitude to Toronto's Jewish community for enabling and embracing the inaugural efforts of our Beit Midrash. From Elul through Av, from the MaRS Centre down south to Thornhill and CHAR, from Bathurst and Bayview to Hamilton and Ottawa, our avreichim felt the Torah and warmth that Ontario has to offer. This strengthened both our own learning and the Torah we were privileged to share with others.

We thank all of our supporters and partners who made our work possible. If you are not already involved, please come on board!

To demonstrate why we are so excited about this year's accomplishments, below are a few figures summing up the past year.

With many thanks and best wishes for an enjoyable summer,

Rabbi Mordechai Torczyner
Rosh Beit Midrash

OUR MISSION

Our Beit Midrash is an incubator for rabbinic leaders and an engine of community education.

Incubator for rabbinic leaders: Helping our avreichim develop knowledge and skills with more than eight hours of daily personal study, as well as lectures, collaborative projects, seminars with local and international Jewish leaders and development of shiurim.

Engine of community education: Teaching community classes, offering chavruta study, working with collegiates and high school students formally and informally, volunteering with communal organizations and publishing print and on-line material.

We embrace and promote the values of our parent institutions, *Yeshiva University* and *Torah miTzion*, an arm of global Mizrahi.

We are named "Zichron Dov" in memory of Mr. Bill Rubinstein, of blessed memory, whose ideals live on in the Torah we learn and teach every day.

Looking Ahead

- ADDING two avreichim
- DEEPENING our partnerships with community institutions
- PARTICIPATING in a community-wide Global Day of Jewish Learning on November 10
- EXPANDING women's programming
- EXPANDING website offerings
