BRINGING RELIGIOUS ZIONISM TO LIFE

Torah is the center of our community.

There are many values of paramount importance which compete for attention in our lives. Learning Torah, supporting Israel, engaging with the modern world, and contributing to society in meaningful ways are only some of the principles we hold dear. However, without a strong basis in Jewish tradition and serious Torah learning, these broad and great ideals could never be fully materialized.

The strength of our community is defined by the range and depth of Torah education that it offers, and the level of adult education offered here is unparalleled.

This has been achieved by a strong partnership between two of the greatest disseminators of Torah in our generation: Yeshiva University which acts as a beacon of synthesis between tradition and modernity, and Kollel Torah Mitzion which stands at the forefront of spreading Torat Eretz Yisrael to communities in the diaspora. The Toronto community is indebted to the Beit Midrash Zichron Dov for creating this atmosphere, and giving us the opportunity to be a model of a community that is steeped in Torah learning.

Thank you to Rabbi Torczyner for your dedication to our community. We at Mizrachi know that we have the greatest of partners in Rabbi Torczyner and his dedicated staff, who share our mission of spreading Torat Eretz Yisrael, and who support our programs.

Our appreciation goes out to David Ely Grundland and Yisroel Meir Rosenzweig for all they have contributed to our community and our schools. I have seen first hand their passion, love, and dedication to Torah and our community. Their impact will be felt for many years to come, and they will be missed.

We express our appreciation to Alan Litwack and Steve Roth for their commitment to the ideals of the Beit Midrash. They have been instrumental in making the Beit Midrash a success. Mazal Tov.

Rabbi Elan Mazer
