Dear Friends:

Our congregation thanks the Yeshiva University Torah MiTzion Beit Midrash Zichron Dov for the ongoing contribution that it makes to Shaarei Shomayim and the broader Toronto Community. We thank the many supporters who gather to pay tribute to this vital communal resource.

We are grateful to our community *avreich* Rabbi David Ely and his wife Shira Rachel Grundland for their contributions to our community over the past two years. The many classes you have taught and relationships you have formed have brought your warmth and spiritual intensity to us, and we are truly grateful. We wish you success in this next step in your life.

Shaarei Shomayim cherishes our partnership with the YU Beit Midrash - under the leadership of Rabbi Mordechai Torczyner. The high level Torah taught in our community including bi-yearly Shabbatons, Medical Halacha Chaburot, Monday Night Beit Midrash, Tanach Classes, post-Musaf shiurim and Parent-Child Learning enrich our community. Much of our shul's special programming benefits from Rabbi Torczyner's thoughtful analysis and presentations including, most recently, both a legal and a medical ethics series, a Hagaddah panel, and our town hall meeting on Physician Assisted Death.

As we go from year to year and strength to strength, we are so appreciative of our institutional and personal friendships. May we merit to celebrate one another's success long into the future.

Rabbi Chaim Strauchler

Brian Cantor - President
