June 7, 2016

Yeshiva University Torah MiTzion Beit Midrash Zichron Dov is a real gem in our community. The amount of shiurim they deliver, kehillot that they impact, and lives they inspire is truly astounding. However, it is not only the quantity of teaching they do which is astounding, it is the depth of study, the array of topics they cover, and the wide spectrum of people with whom they are able to connect.

On a personal level, at Shaarei Tefillah, we have been blessed to host the kollel on many different occasions, be it our annual Selichot program, various Midreshet Yom Rishon shiurim for women, a weekly contemporary Halacha class or a Shabbaton weekend. The kollel members are always interested in finding ways to increase the level and caliber of learning that our community is able to enjoy and each time they come, they are met with tremendous excitement from our membership as well as people throughout the community. We wish the kollel continued hatzlacha in all of its avodat hakodesh and look forward to learning from and with them for many years to come as they continue to be marbitz torah throughout the Toronto community!

Sincerely,

Rabbi Rafael Lipner
